

Grantham McDonalds Workplace

Visit 2019

On Tuesday 29th January 2019 a group of pupils visited Grantham McDonalds to find out what is like to work in a fast food restaurant.

The pupils really enjoyed learning all about how a McDonalds works, we looked at the food storage, learnt about where the food comes from, we even went in the very cold freezer! We saw where and how the food is cooked and experienced first hand the high standards of customer service that McDonalds give their customers.

Sharon also explained to us about how the McDonalds delivery lorry's run on the recycled oil that the fries are cooked in, helping McDonalds to be more environmentally friendly.

At the end of the visit we were all treated to burgers and a drink which went down very well with the pupils.

Thank you to all the staff at Grantham McDonalds for making this such an interesting and enjoyable visit.
