

## Being A Host At McDonalds

Following an application process Ambergate students were interviewed for the work experience position of Host at Grantham McDonalds by employees Sharon and Andy.

Two of the successful applicants were Aaron and Molly who joined the team for an afternoon a week working alongside the front of house team. They both enjoyed the opportunity to demonstrate the knowledge of health, safety and hygiene, and putting into practice their great customer service skills.

During their first week Aaron and Molly both went through the induction process that all new McDonald's staff take part in. This included a game about McDonalds.

This is the perfect opportunity for our students to experience jobs that could be available to them part time when they go to college or for long-term full-time careers.
