Dear Parent/Carers

Re: Communication Passports

As part of our ongoing improvement of communication at GANF, we use communication passports for some of our pupils. We are looking to update these.

A communication passport is a quick guide to how to communicate with an individual. It ensures that everyone working with a person can easily share key information.

Please find enclosed the communication passport for your child. We would be grateful for any updates.

Please annotate the enclosed form and return it to school as soon as possible.

We will then collate all the information to give us an accurate picture of communication for each child.

Yours sincerely

Amy Arms-Rawden
